

ONE MAN DEAD,
TWO BADLY HURTRio Grande Limited Bounds From
Boulder to Cliffs, a Wreck.IMPORTANT TRAFFIC DEAL
AGENTS WILL NOT DISCRIMINATE
AGAINST FOREIGNERS.

DERAILED by a boulder yesterday morning, a passenger engine running at a high rate of speed on the Rio Grande Western jumped the tracks. It plowed into the cliffs on one side of the track, and after scraping along these towering walls for a short distance it fell upon its side. One man was killed and two were wounded by the accident. The coaches did not leave the track, but the passengers were severely shaken up.

The accident occurred about 3 o'clock, near Westwater. At this point the cliffs rise to a considerable height. Far below on the other side the abrupt walls are washed by the swift waters of the Grand river. Through this canyon is a stretch of roadbed that is unsurpassed anywhere in the country. Engineers take advantage of this stretch to make up lost time, and a high rate of speed is possible.

No. 1, known as the Pacific Coast Limited, is one of the best passenger trains on the system, and was making about fifty miles an hour when it struck the obstruction. The engine, a 2-6-0, was followed by the mail and baggage car. The fireman, C. C. Reagle, of Helper, landed under the locomotive and died from his injuries several hours after the accident. Engineer John Cummings, of Grand Junction had one leg broken and his foot crushed. Mail Clerk E. S. Benson of Ogden had his shoulder broken, and he received internal injuries. He may die.

The fireman was pinned under one of the trucks of the engine. A rail had pierced the water tank and water was pouring down upon the dying man. To keep him from drowning it was necessary to elevate his legs. The engine, however, frozen. He had recently placed an order to have his picture enlarged as a Christmas present for his wife. Before dying he raised himself upon his elbow and said: "Tell Mrs. B. S. Montgomery to give my wife the picture." He died with his eyes closed, his blood gushing from his mouth. He did not talk again.

A wrecking outfit was sent to the scene from Helper, the division point of the line. Joseph H. Young, who was in Helper at the time of the accident, superintended the work of clearing the track, and under his direction progress was made, but the train reached this city over six hours late. The train is due here at 12:35.

THROUGH TRAIN SERVICE.
Important Traffic Deal to be Consummated in This City.

It is expected that the representatives of the St. Paul and Union Pacific will arrive in this city some time this afternoon. It is not known who will represent the Southern Pacific, but it is expected that E. O. McCormick, passenger traffic manager, will be present, and Vice President Kruttschnitt may come. J. C. Stubbs, who is traffic director of all the Harriman lines and third vice president of the Southern Pacific, joined the party at Omaha, where he arrived from the east on Monday.

The meeting here is to perfect arrangements regarding the through car service to be introduced by the St. Paul between Omaha and the Harriman terminals. The movement is the result of the traffic agreements recently entered into between the St. Paul and the Union Pacific. The Northwestern had a similar ten-year agreement with the Union Pacific by which each road was to have uncongested hauls from the other line.

This agreement expired about five years ago, and since then the uncongested freight from the Union Pacific has been divided at Omaha with the other roads. The St. Paul, Northwestern and the Illinois Central have had berth space on the Union Pacific trains, but the deal to be consummated here will give the St. Paul a through service from Chicago to the coast.

WILL EXTEND COURTESIES.
Passenger Agents Will Not Discriminate Against Foreigners.

There will be no discrimination against Buddhist missionaries by the railroads. D. E. Burley, general passenger and ticket agent for the Oregon Short Line returned yesterday from the east where he has been in conference with the representatives of other lines. Mr. Burley said that questions of more or less public interest are frequently brought up at these meetings but that the Chicago meeting developed nothing of this kind.

Regarding the question of half rates to foreign missionaries he said that they would be extended the usual courtesies. The question came up in the shape of communications to the railroad passenger departments asking for light on the subject. Mr. Burley implied that the railroads are not inclined to discriminate between religious and the probability is that the Japan, Turkey, India and other Oriental missionary fields will enjoy the same privileges as those guaranteed other representatives of salvation.

Foreign officers of the army or navy will be treated with similar courtesies when they present their credentials showing that they are entitled to consideration in the way of favors.

A RICH HAUL.
From Ship of the Oregon Railway & Navigation Company.

One of the richest shipments of freight ever handled by the Oregon Short Line went east over the Union Pacific yesterday bound for Pittsburg, Pa., and for other eastern points. The train, which consisted of forty-five cars, represented an independent fortune. It was freighted with Oriental products and was unloaded at Portland, Ore. The Navigation company had the haul as far as Huntington. In the haul were fifteen cars of tea, besides carloads of mattings from China, camphor, curries, spices, silks and other valuable loads of goods. It represented a ship load of goods and showed the importance of the commercial relations between this country and the Orient.

PUBLIC LIBRARY REPORT.

Institution Well Off Financially—Many Books on Hand.

The regular monthly meeting of the board of directors of the public library was held yesterday, with Mrs. Homestead, Mrs. Dart, Mrs. Richards and Messrs. Pyper, Webber and Hill present. Bills for the month amounting to \$221.05 were ordered paid, and the auditor reported a balance on hand of \$4,066.22. The list of periodicals which were used this year, with few exceptions, adopted for 1903, and the librarian reported that the new cards were ready for issuance to patrons who desired two books at a time—one not being fiction.

The report of the librarian for the month showed that there were 20,101 volumes in the library on the 1st, and during the month 229 volumes were added, thirty-eight discarded and twenty ordered destroyed by the board of health. Two hundred and thirty-five members were added during the month, making a total of 9,189.

NEED TEETH.

Serious Failure of Body Comes From Lack of a Good Grinding Mill.

A few years ago mother had her teeth all taken out, hoping in that way to relieve her suffering, but failed, and it left her gums so sensitive that the wearing of false teeth or the proper mastication of food were equally impossible, so that in the spring of 1901 she failed rapidly, mind and body both giving way and for many weeks life and reason were despaired of. "At one call of her physician he said she absolutely must take more nourishment, eating, as he said, 'grape-Nuts'." I immediately obtained a package, prepared some with good, rich cream, and fed her from a tumbler, she began to take it regularly and liked the food so well that she would ask between times if we had any ready for her. She began to improve at once.

"It is now three months since she began eating the food. She has fully recovered her health, looks better and is healthier and stronger mentally and physically, than for many months previous."

"Grape-Nuts furnished the nourishment for her that it seemed impossible to get from any other kind of food." Name given by Postum Co., Battle Creek, Mich.

CITY FATHERS IN SESSION.
Council Not Inclined to Confer on
Waters Already Appropriated.

Provo, Dec. 2.—The following business was transacted at the meeting of the city council last evening:

A communication was received from D. C. Hanks, chairman, and Robert Duke, secretary, of a "committee on promotion" of Wasatch county, which had taken steps to locate certain lakes at the head of Provo river for reservoir purposes. The communication invited representation of the council to meet with Wasatch county citizens, Dec. 3, at Heber City, also asked the council to invite other interested parties to meet with the Wasatch people.

The opinion of the council was that Provo has already appropriated said lakes for reservoir purposes, and had done the necessary work to entitle it to the control of the lakes. Councilman Carter and W. K. Farrer were appointed to meet with the Wasatch county people and to present to them that the city claims the lakes. The committee was also authorized to invite the council members in Utah county to attend the meeting.

The Provo volunteer fire department presented a communication asking that some improvements be made in the fire department building so that it would be a fit place for others than beasts and vultures. Some of the improvements are already under way, and the council did not like the imputation that the fire hall was a comfortable place for the boys, and sent the communication back.

A liquor license was issued to John Leach, who was passing the boys, and in the near future.

Including Inspector Liddard reported having issued building permits for the year ending Nov. 30 for buildings valued at \$9,200.

The committee on streets and alleys recommended in the matter of requesting the woolen mills company to take the high fence around the block, for the purpose of preventing accidents to bicycle riders and to pedestrians from whom the fence was a constant annoyance. The committee recommended that the fence be removed, and that the company be required to take the fence down.
